Be prepared to walk away with insight and actionable steps towards personal transformation as well as practical application for your church or ministry.

Have you asked yourself these questions?

*Will I have a church when we all get back to "normal"? Do I wear a mask or not? Do we open our church, or not? Are zoom, Facebook live or recorded messages really ministering to the people? **How do we implement all the COVID restrictions and regulations?** How do I visit the elderly? And the list goes on..... **What is God teaching and showing us in this process?** We have never been this way before. Navigating can be challenging, at best. You are not alone and there is hope. This webinar will give you hope for the future, tools for navigating through to transformation.*
